

Pairwise similarity between categories by time period

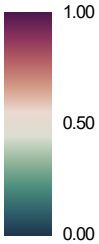

0-500 Years — Co-clustering frequency

0-500 Years — Feature similarity

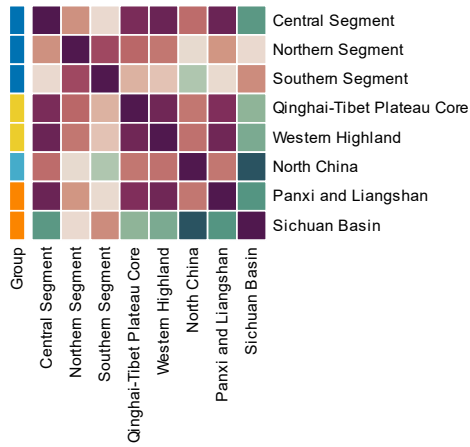

Pairwise value

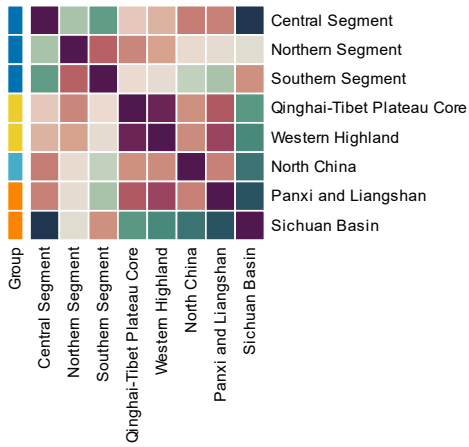

Group

- Corridor Segment
- Highland
- Northern Lowland
- Sichuan Region

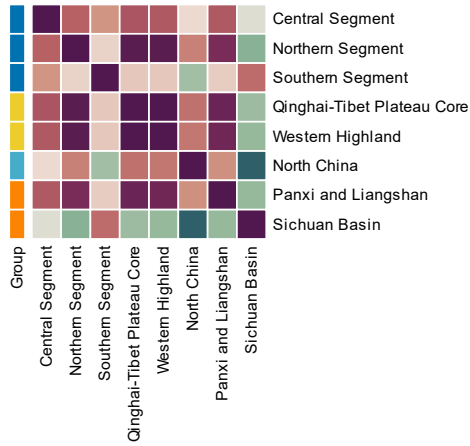

500-1000 Years — Co-clustering frequency

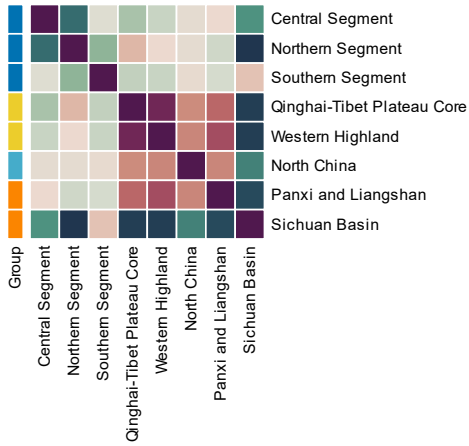

500-1000 Years — Feature similarity

1000-1500 Years — Co-clustering frequency

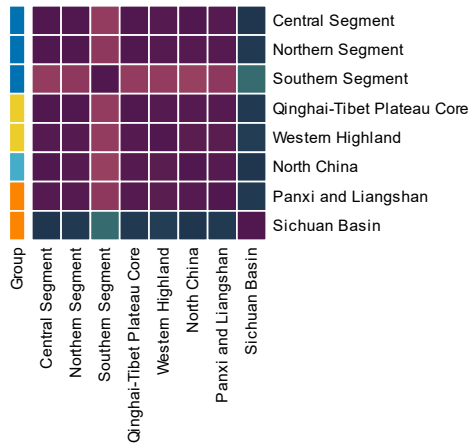

1000-1500 Years — Feature similarity

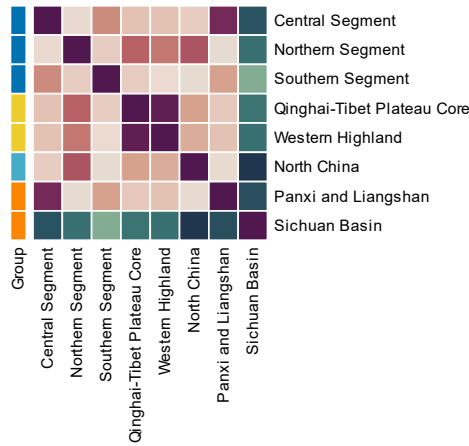

Pairwise similarity between categories by time period

1500-2000 Years — Co-clustering frequency

1500-2000 Years — Feature similarity

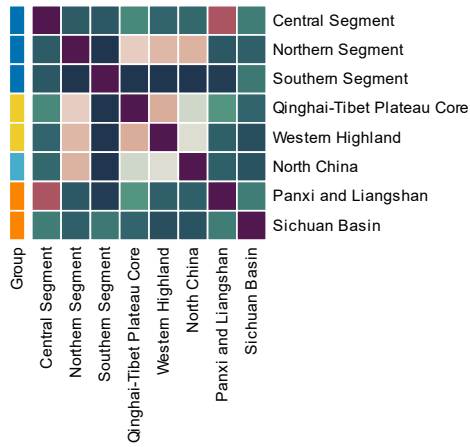

Pairwise value

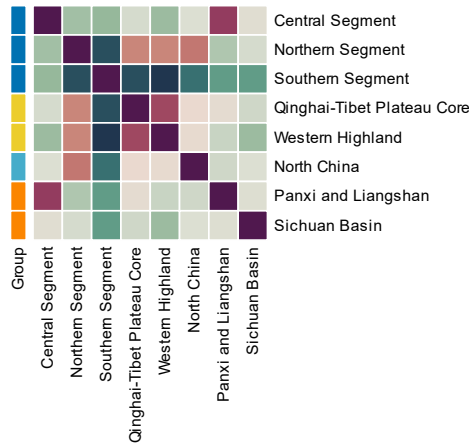

Group

- Corridor Segment
- Highland
- Northern Lowland
- Sichuan Region

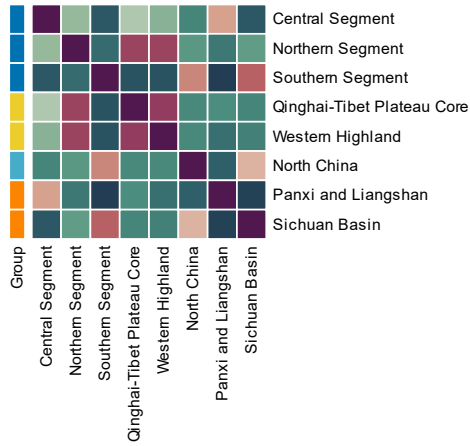

2000-2500 Years — Co-clustering frequency

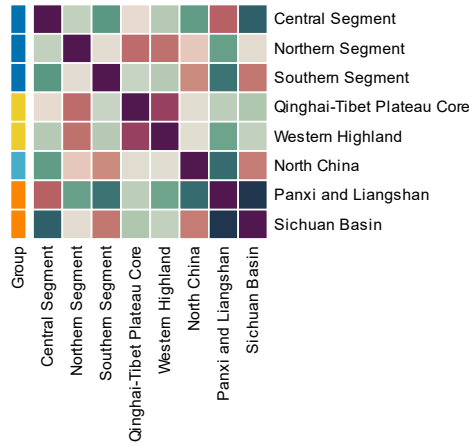

2000-2500 Years — Feature similarity

2500-3000 Years — Co-clustering frequency

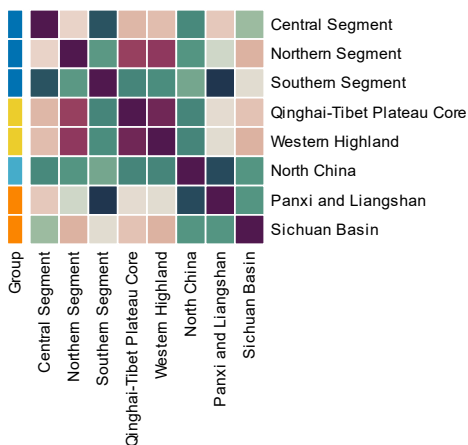

2500-3000 Years — Feature similarity

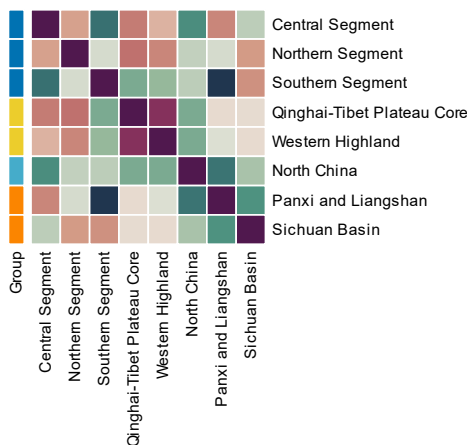

Pairwise similarity between categories by time period

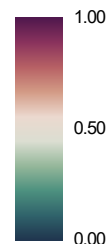

3000-3500 Years — Co-clustering frequency

3000-3500 Years — Feature similarity

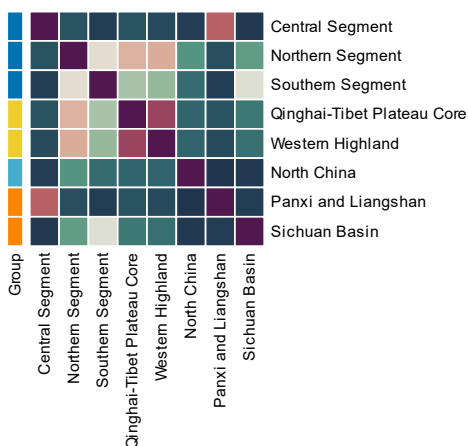

Pairwise value

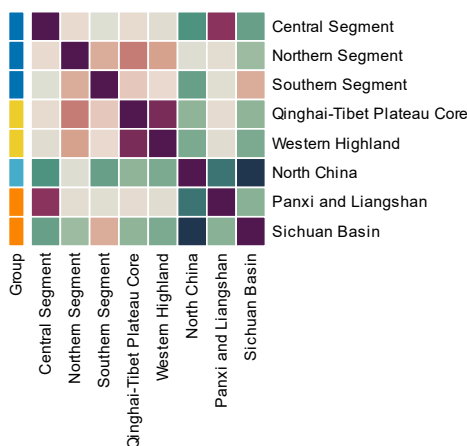

Group

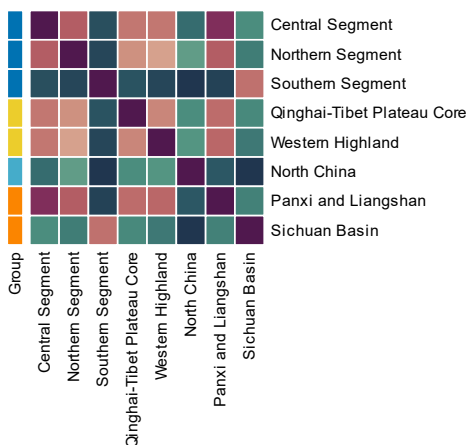

3500-4000 Years — Co-clustering frequency

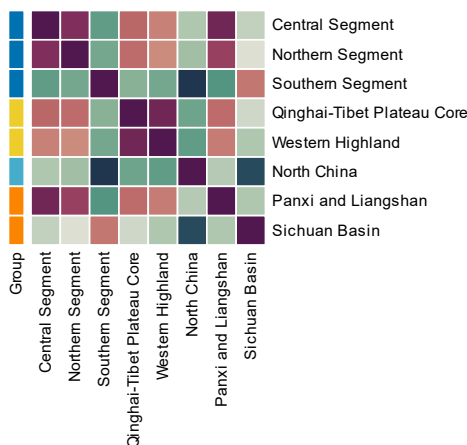

3500-4000 Years — Feature similarity

4000-4500 Years — Co-clustering frequency

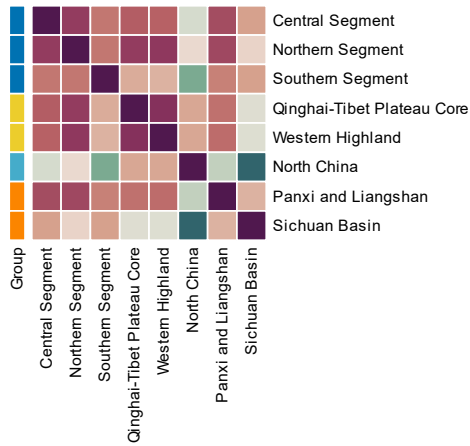

4000-4500 Years — Feature similarity

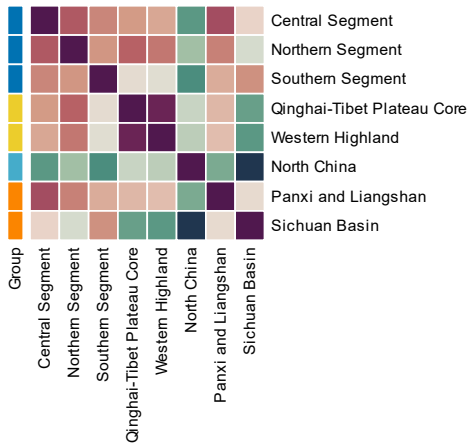

Pairwise similarity between categories by time period

4500-5000 Years — Co-clustering frequency

4500-5000 Years — Feature similarity

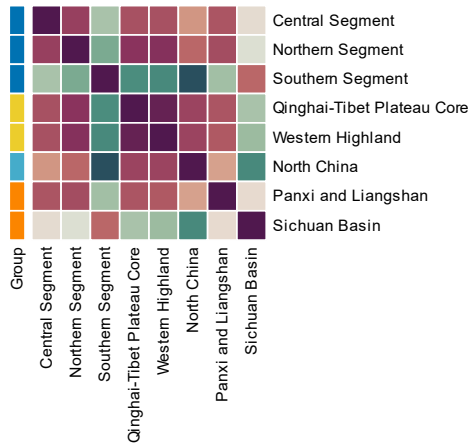

Pairwise value

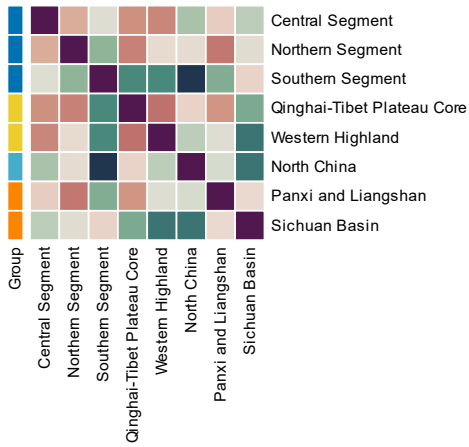

Group

- Corridor Segment
- Highland
- Northern Lowland
- Sichuan Region

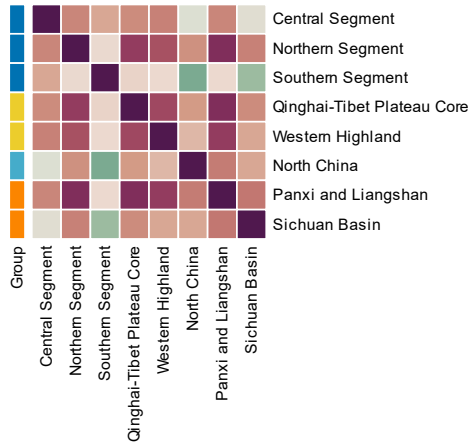

5000-5500 Years — Co-clustering frequency

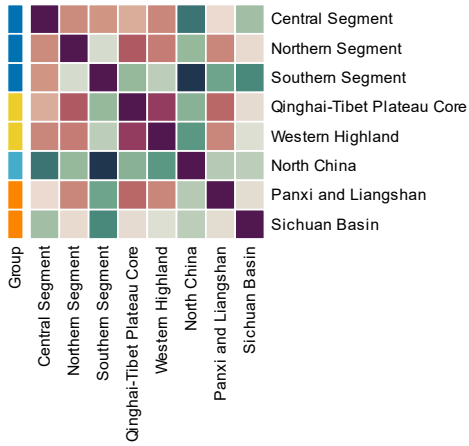

5000-5500 Years — Feature similarity

5500-6000 Years — Co-clustering frequency

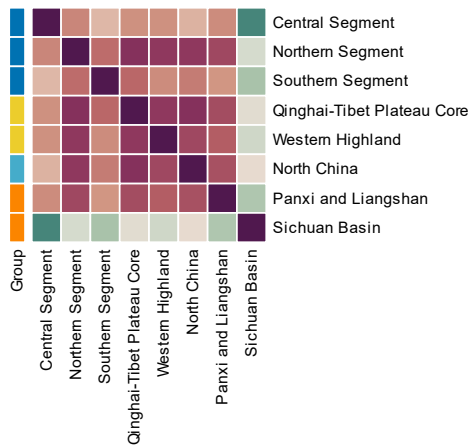

5500-6000 Years — Feature similarity

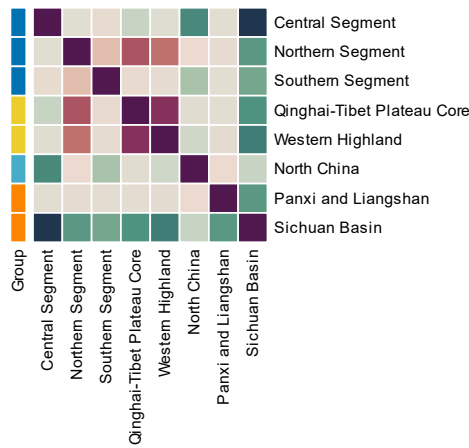

Pairwise similarity between categories by time period

6000-6500 Years — Co-clustering frequency

6000-6500 Years — Feature similarity

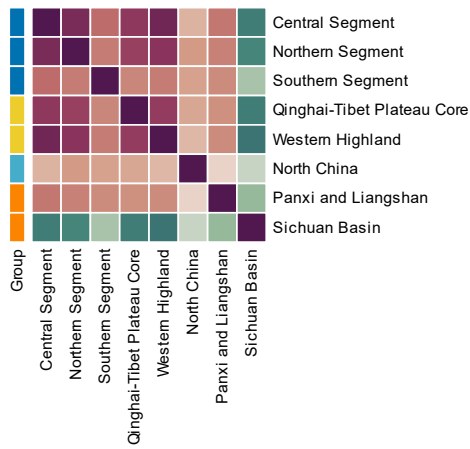

Pairwise value

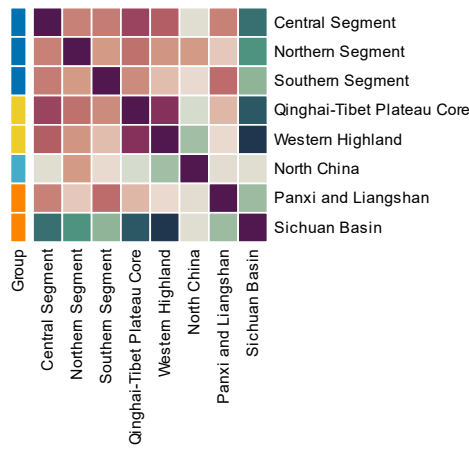

Group

- Corridor Segment
- Highland
- Northern Lowland
- Sichuan Region

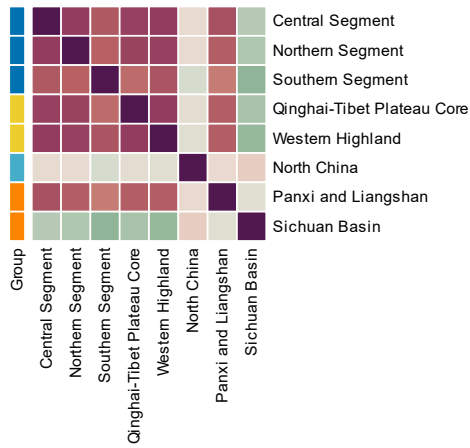

6500-7000 Years — Co-clustering frequency

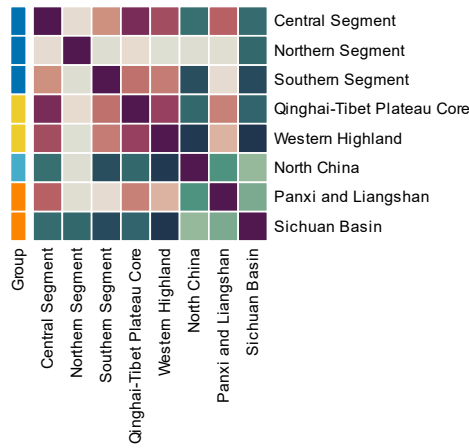

6500-7000 Years — Feature similarity

7000-7500 Years — Co-clustering frequency

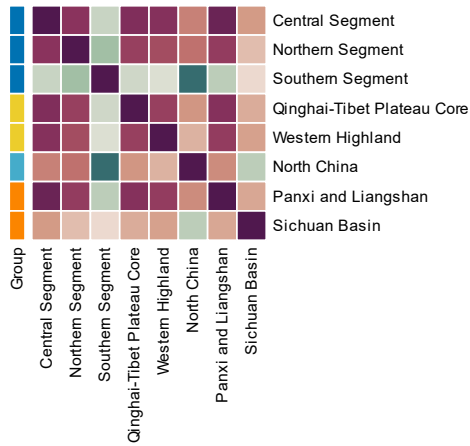

7000-7500 Years — Feature similarity

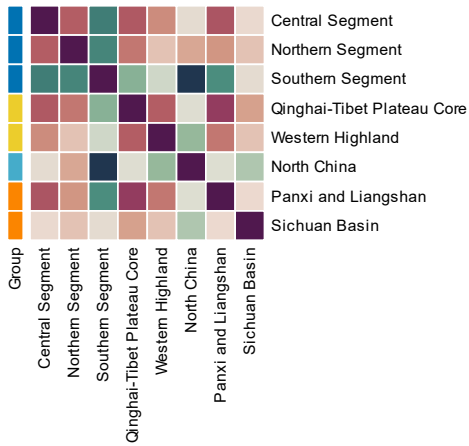

Pairwise similarity between categories by time period

7500-8000 Years — Co-clustering frequency

7500-8000 Years — Feature similarity

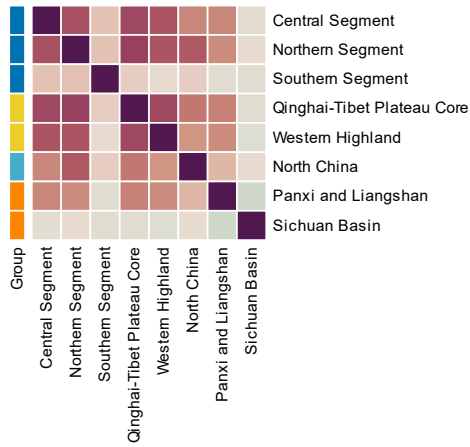

Pairwise value

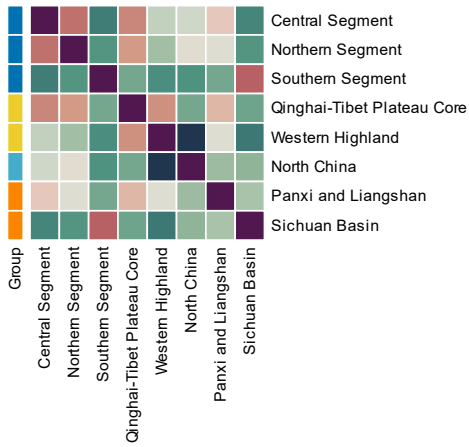

Group

- Corridor Segment
- Highland
- Northern Lowland
- Sichuan Region

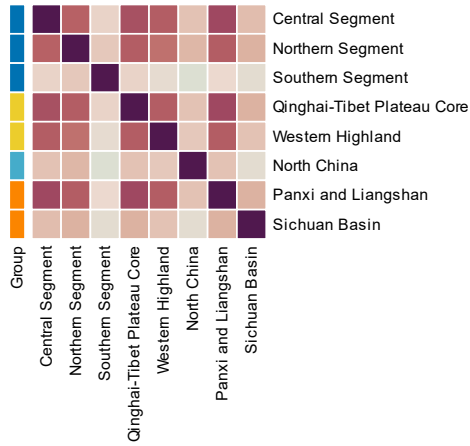

8000-8500 Years — Co-clustering frequency

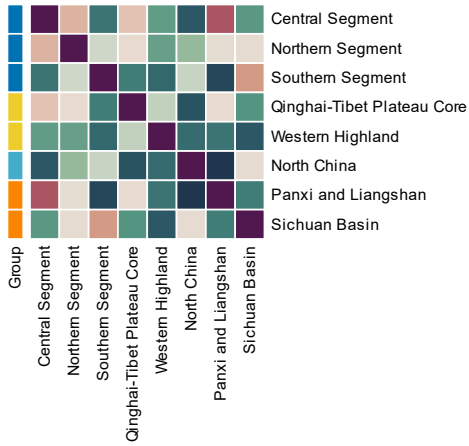

8000-8500 Years — Feature similarity

8500-9000 Years — Co-clustering frequency

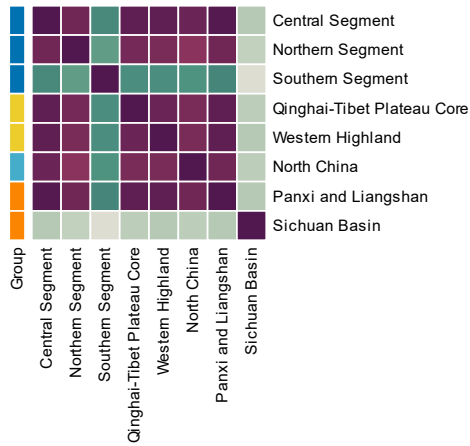

8500-9000 Years — Feature similarity

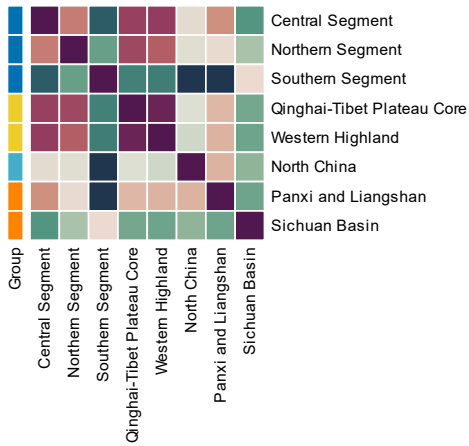

Pairwise similarity between categories by time period

9000-9500 Years — Co-clustering frequency

9000-9500 Years — Feature similarity

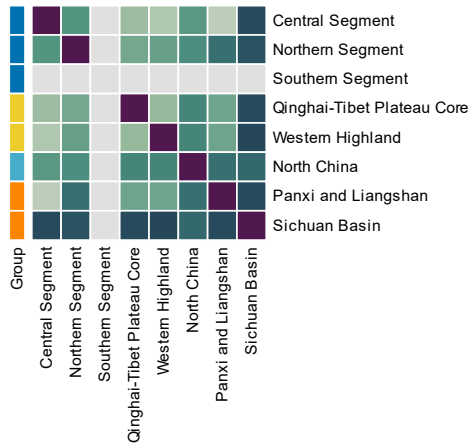

Pairwise value

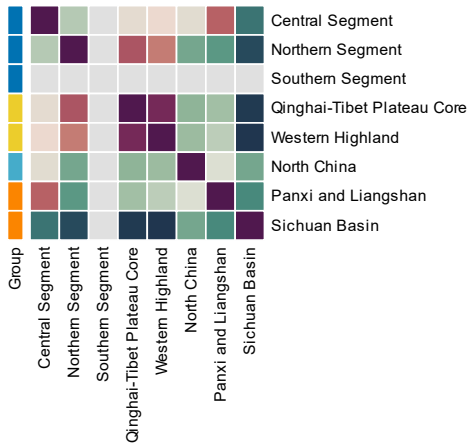

Group

- Corridor Segment
- Highland
- Northern Lowland
- Sichuan Region

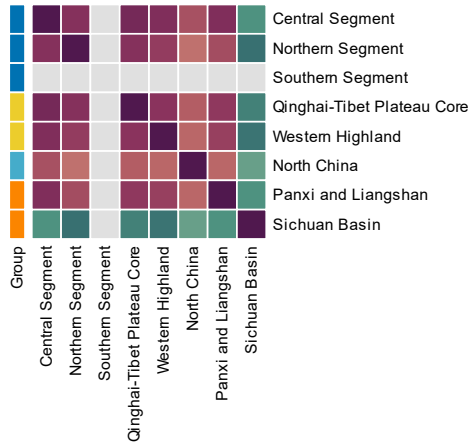

9500-10000 Years — Co-clustering frequency

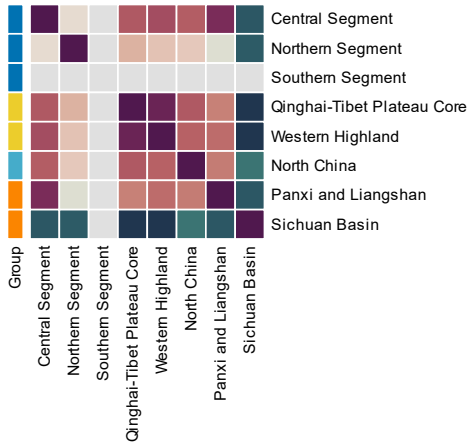

9500-10000 Years — Feature similarity

10000-10500 Years — Co-clustering frequency

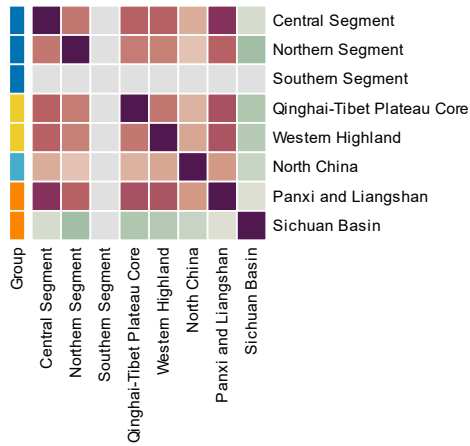

10000-10500 Years — Feature similarity

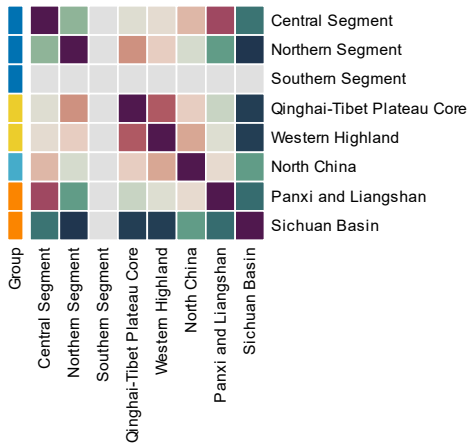

Pairwise similarity between categories by time period

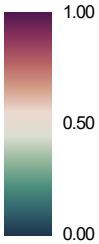

10500-11000 Years — Co-clustering frequency

10500-11000 Years — Feature similarity

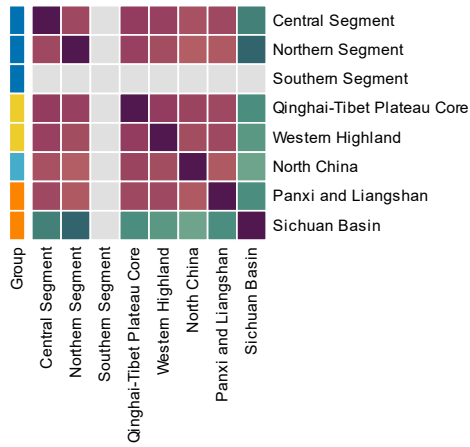

Pairwise value

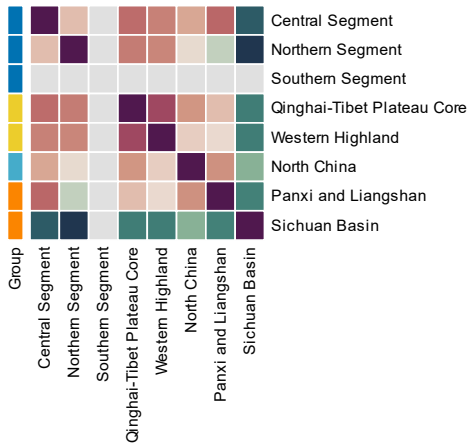

Group

- Corridor Segment
- Highland
- Northern Lowland
- Sichuan Region

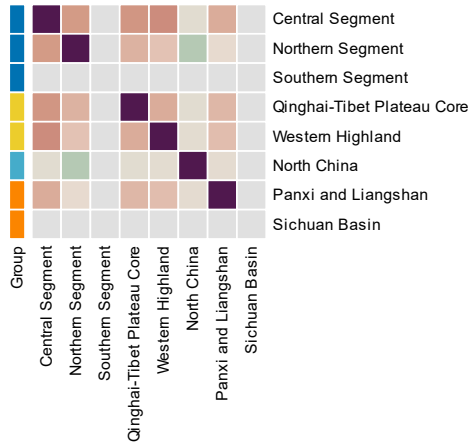

11000-11500 Years — Co-clustering frequency

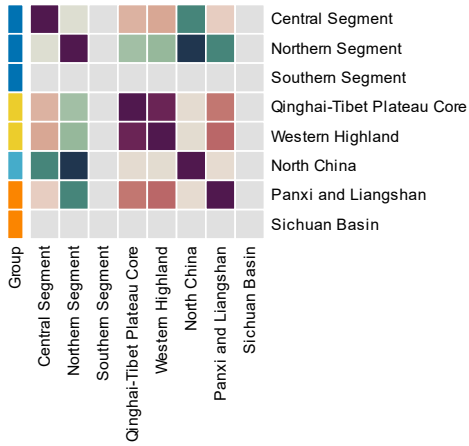

11000-11500 Years — Feature similarity

11500-12000 Years — Co-clustering frequency

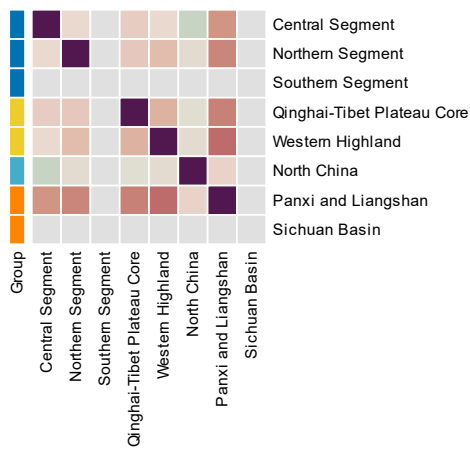

11500-12000 Years — Feature similarity

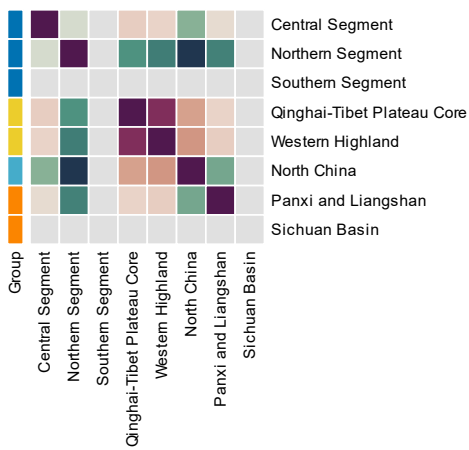

Pairwise similarity between categories by time period

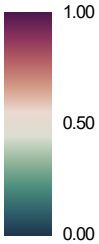

12000-12500 Years — Co-clustering frequency

12000-12500 Years — Feature similarity

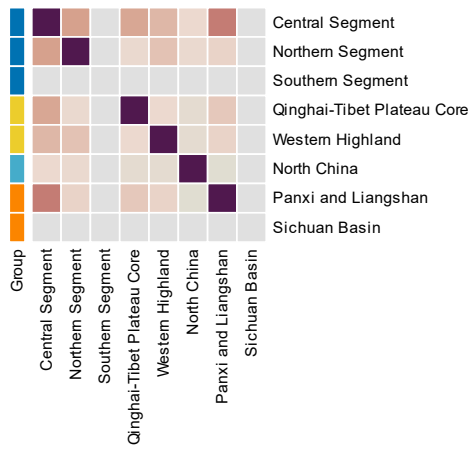

Pairwise value

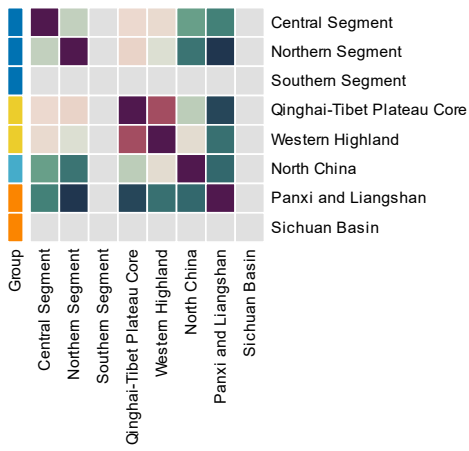

Group

- Corridor Segment
- Highland
- Northern Lowland
- Sichuan Region

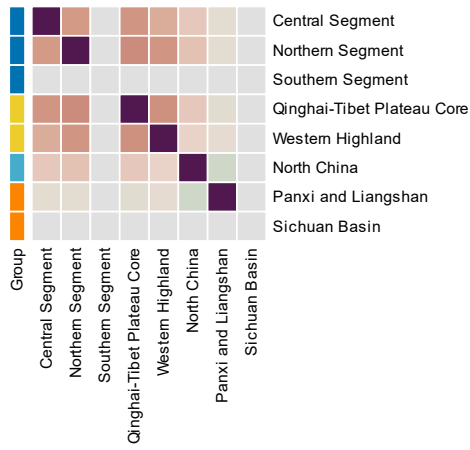

12500-13000 Years — Co-clustering frequency

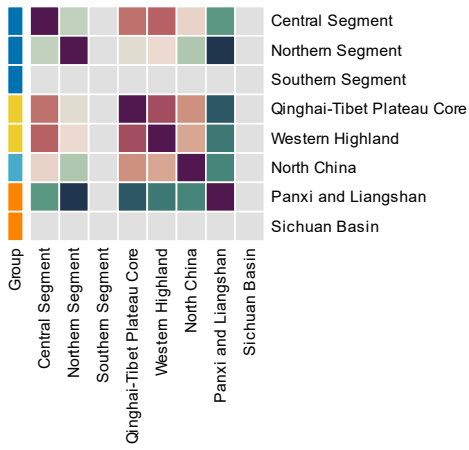

12500-13000 Years — Feature similarity

13000-13500 Years — Co-clustering frequency

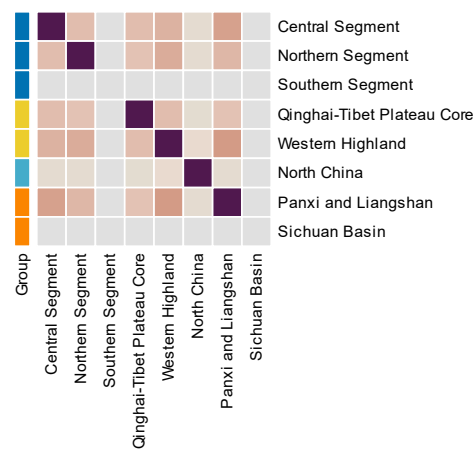

13000-13500 Years — Feature similarity

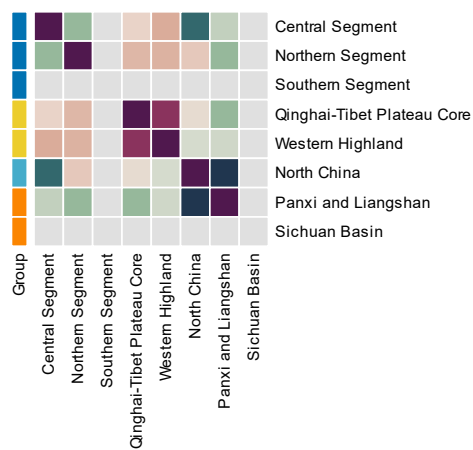

Pairwise similarity between categories by time period

13500-14000 Years — Co-clustering frequency

13500-14000 Years — Feature similarity

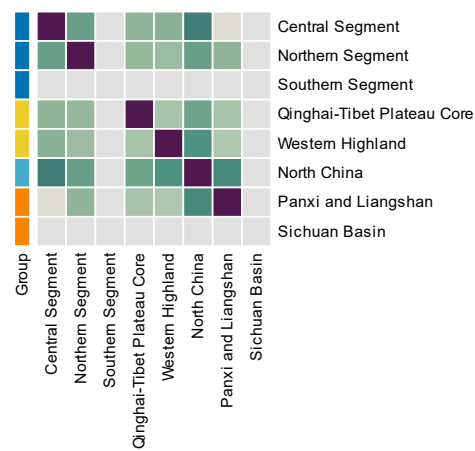

Pairwise value

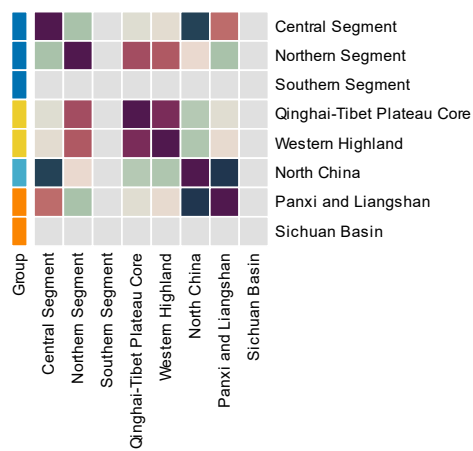

Group

- Corridor Segment
- Highland
- Northern Lowland
- Sichuan Region

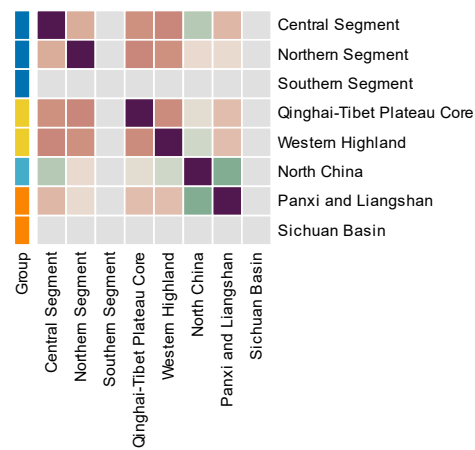

14000-14500 Years — Co-clustering frequency

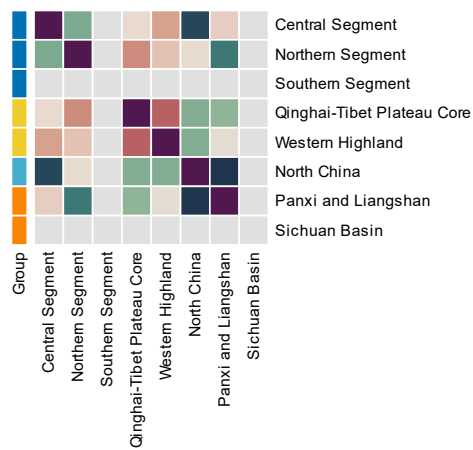

14000-14500 Years — Feature similarity

14500-15000 Years — Co-clustering frequency

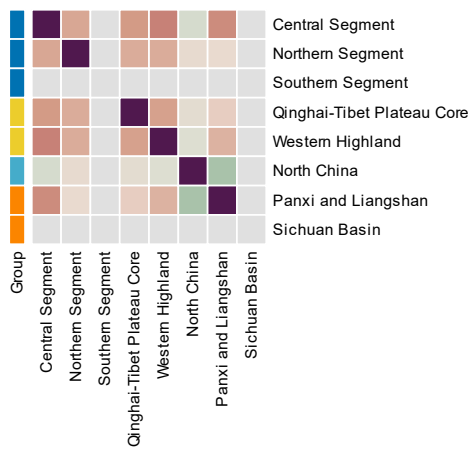

14500-15000 Years — Feature similarity

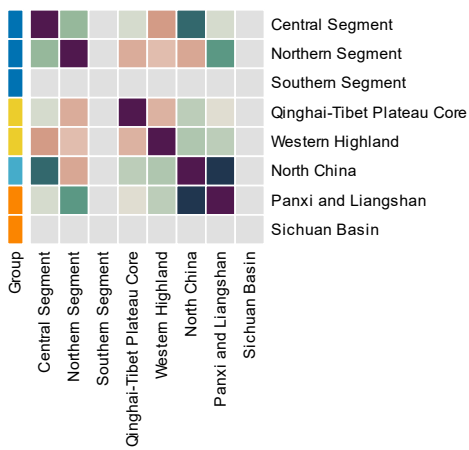

Pairwise similarity between categories by time period

15000-15500 Years — Co-clustering frequency

15000-15500 Years — Feature similarity

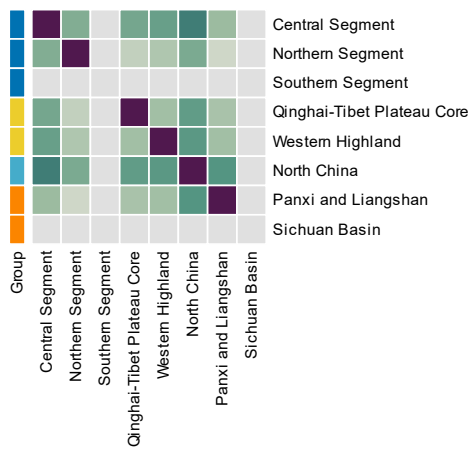

Pairwise value

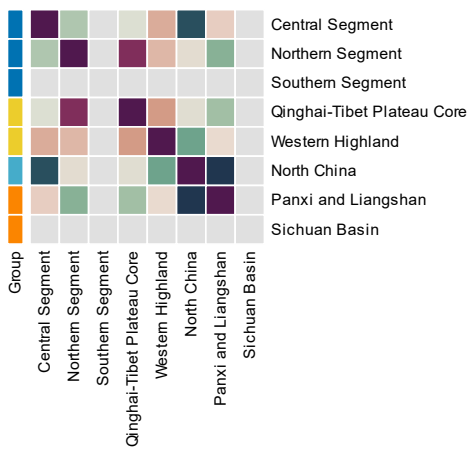

Group

- Corridor Segment
- Highland
- Northern Lowland
- Sichuan Region

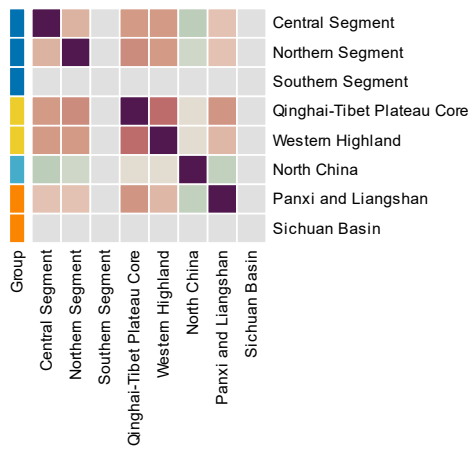

15500-16000 Years — Co-clustering frequency

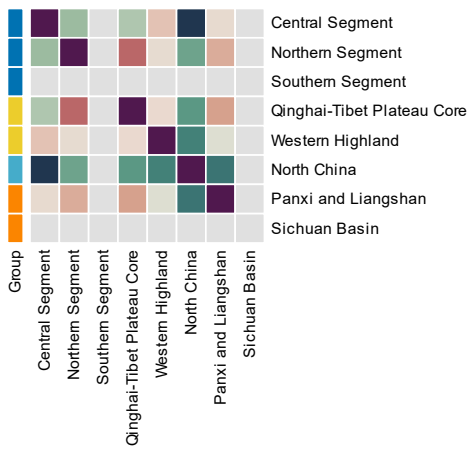

15500-16000 Years — Feature similarity

16000-16500 Years — Co-clustering frequency

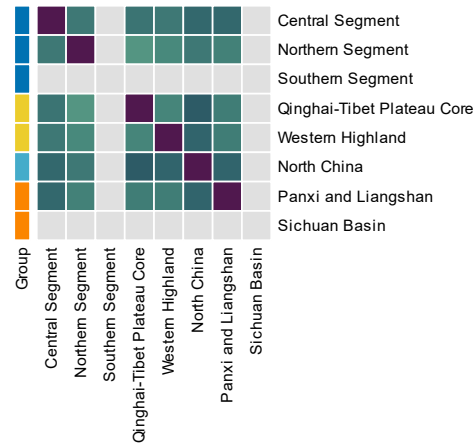

16000-16500 Years — Feature similarity

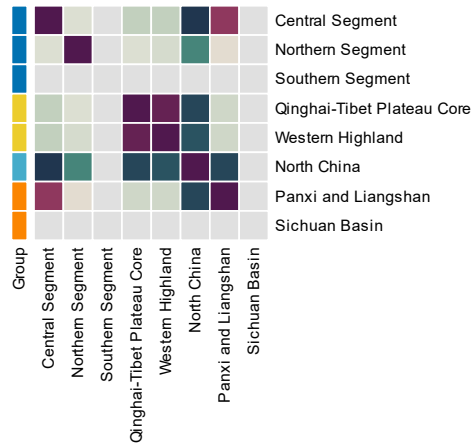

Pairwise similarity between categories by time period

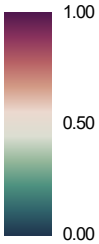

16500-17000 Years — Co-clustering frequency

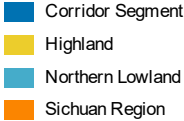

16500-17000 Years — Feature similarity

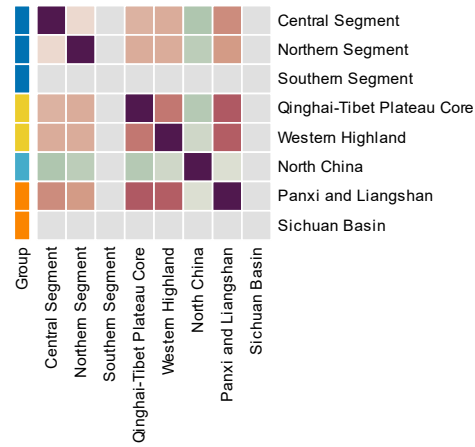

Pairwise value

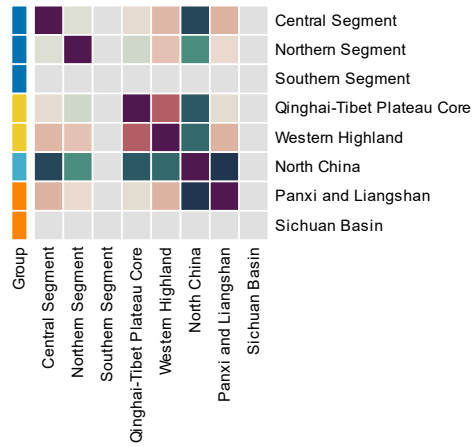

Group

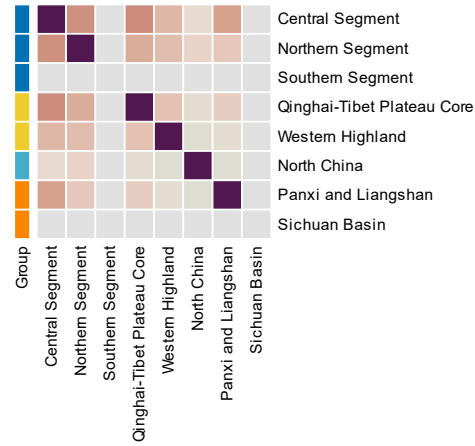

17000-17500 Years — Co-clustering frequency

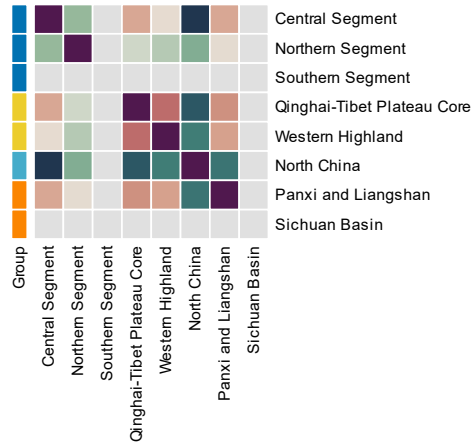

17000-17500 Years — Feature similarity

17500-18000 Years — Co-clustering frequency

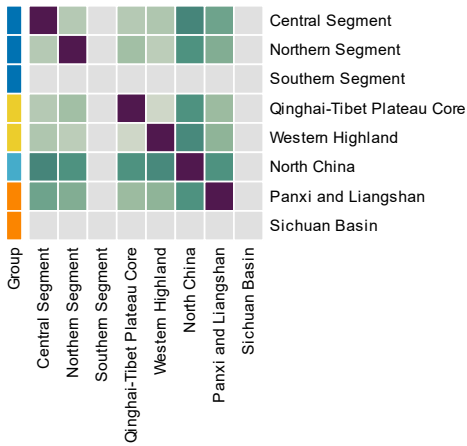

17500-18000 Years — Feature similarity

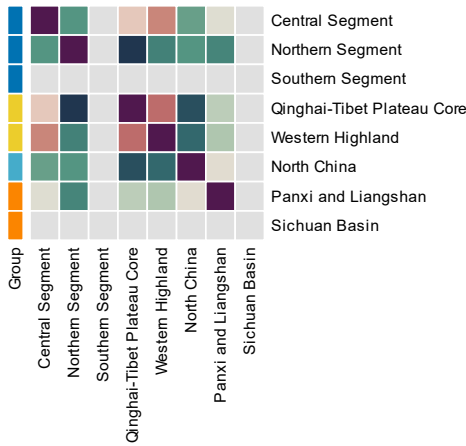

Pairwise similarity between categories by time period

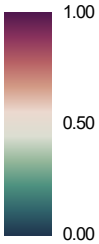

18000-18500 Years — Co-clustering frequency

18000-18500 Years — Feature similarity

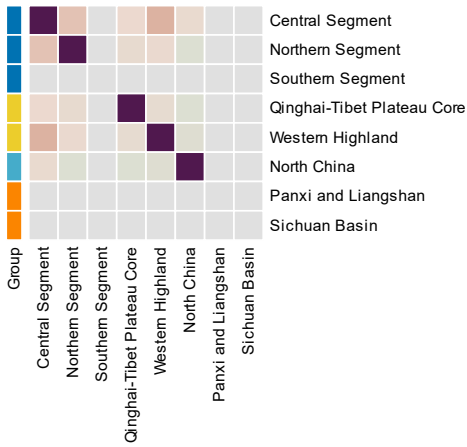

Pairwise value

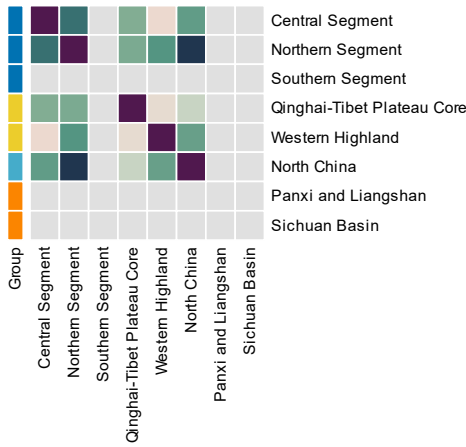

Group

- Corridor Segment
- Highland
- Northern Lowland
- Sichuan Region

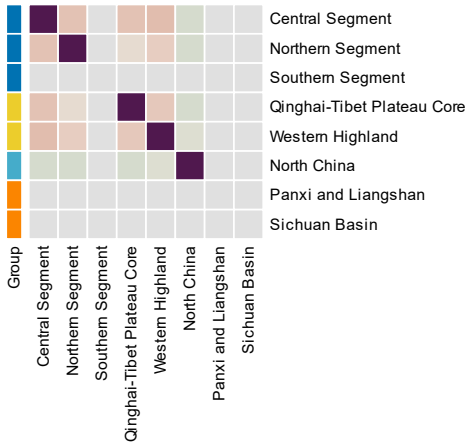

18500-19000 Years — Co-clustering frequency

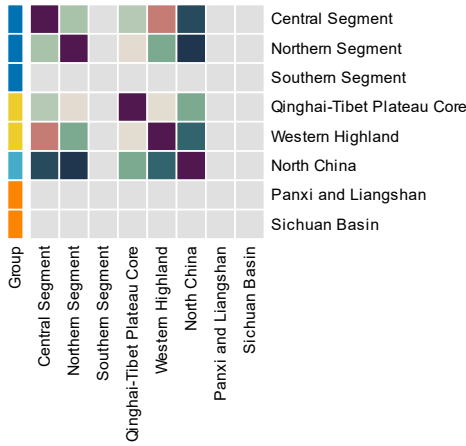

18500-19000 Years — Feature similarity

19000-19500 Years — Co-clustering frequency

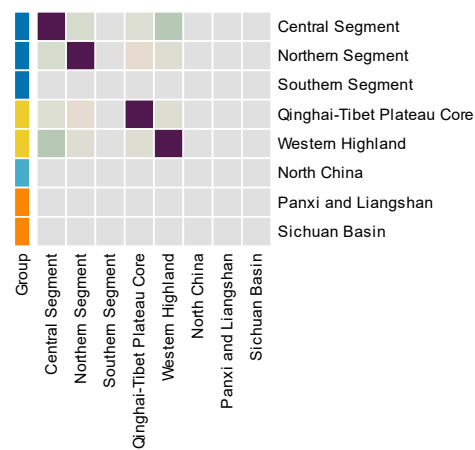

19000-19500 Years — Feature similarity

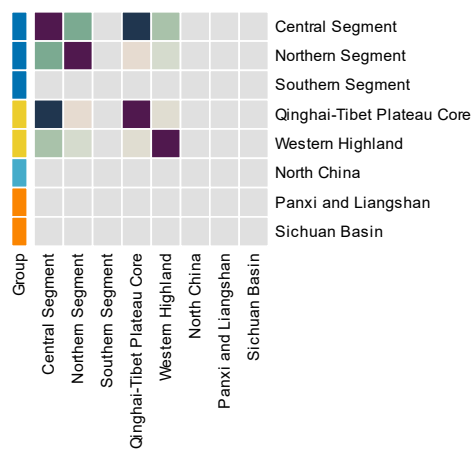

Pairwise similarity between categories by time period

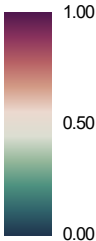

19500-20000 Years — Co-clustering frequency

19500-20000 Years — Feature similarity

Pairwise value

Group

- Corridor Segment
- Highland
- Northern Lowland
- Sichuan Region
